Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Discussed claim 2 and the Fukada reference. Fukada fails to teach the steps of preventing a shift when a sensor detects no movement or rearward movement in the transmission chain and allowing a shift when the sensor detects forward movement in the transmission chain. Also discussed providing a terminal disclaimer with respect to the copending application 11/138815. The limitations of claim 2 are believed to be allowable over the prior art of record, but the applicant was advised that the prior art search would need to be updated.
